2019-2020 Exam Results

Brent River College provides education for up to 36 students, aged 14 to 16, in our KS4 provision. All our students have been permanently excluded from mainstream school.

Our students' education has been disrupted and they more often start with us part way through KS4. We enter all students for examinations and all students complete the Key Stage.

Our focus is to ensure that students achieve qualifications to enable them to progress to Further Education.
